- Tools/Platforms** Git, Github, Netlify, Heroku, Firebase, MongoDB
- Soft Skills** Leadership, Event Management, Public Speaking, Timely Communication

Projects

- Bitastik (NextJS, NodeJS, MongoDB, Firebase)**
A social media platform for the students of BIT Mesra to cater to their day-to-day college needs. It consists of an events calendar to keep everyone up to date with the latest happenings across the college without the fuss of being added to the newsrooms and various WhatsApp groups. Another key feature includes BIT notes that keep track of your to-do activities. (December '21)
Repository: <https://github.com/hardikpedia/Bitastik>
- Smart Contract Raffle (NextJS, Solidity, Chainlink, Moralis, web3uikit, Ethers, Hardhat, IPFS)**
A raffle project implemented with smart contracts to make the raffle completely decentralised and Immutable.
Repository: <https://github.com/hardikpedia/smarcontract-raffle>
- MintNFT(Solidity, Hardhat, EtherJS, Alchemy, Web3JS, OpenZeppelin)**
Developed and Deployed Smart Contracts for minting NFTs using ERC721 Standards on Rinkeby Test Network. The images are fetched from IPFS Server to mint NFTs. The contract Sends the NFTs to the owner's account then the owner can transfer it to different accounts.
Repository: <https://github.com/hardikpedia/NFT-mint>

Experience

- Neev Herbal Handmade Soaps** Remote
Intern July 2021 - September 2021
 - Handled the entire technical and visual aspects of the website www.neevsoaps.com during the internship tenure. This also included managing the dashboard of Razorpay Payment Gateway.
 - Created and managed new delivery partner Shiprocket Delivery Services.
 - Worked on the user interface and product listings for Neev on the online retailers Amazon and Flipkart. The listing issues and upgrading of products to Prime required extensive problem addressing.
- Fincess** Remote
Startup Experience September 2021 - November 2021
 - Fincess is a startup initiative to build a community of students with a common belief that everyone should have easy access to opportunities and resources from their fields of interest.
 - Worked on the frontend part which involved user profile management page and blogs pages.
